—Mighty nice weather the weather man is handing out and here's hoping this kind of weather will continue at least until all of the corn is gathered. All corn is reported to be down in very bad shape and a deep snow at this time would mean the loss of lots of corn.

—Brit Bridgman, the latter part of last week, put in a cement floor in his garage, and a ceiling, with a force pump inside the building run by a gasoline engine, a big heating stove to keep the building warm. Owen says all of his folks are well and getting along nicely.
—Pard Wilson holds the best record for husking corn in these parts, that we have heard of this season. Pard has been husking corn for Jasper Odell, west of town, and in eight days gathered 764 bushels, the best one day's work being 120 bushels of corn. Jasper had two other good men—Geo. Dean, who averaged 50 bushels per day, and Albert Dougherty, whose average was 35 bushels. The boys finished gathering Jasper's corn, last Thursday.
—Our honest opinion about the banquet, Bro. Goody, is that the correspondents are not advertising enough. Outside of Bigelow and Triumph, there is nothing said. Bro. Brownlee, of Fortescue fame, used to boast, but he got to feasting on wild ducks and mud hens and he fell by the way side, and the honey we had saved up has gone the way of all good honey, and really we are almost afraid to say any more. Come on folks, don't you know it pays to advertise, especially in THE SENTINEL.
—Bridgman & Dudley, the latter part of last week, shipped two thoroughbred blood hound pups to the Bookwood Kennels, in Lexington, Ky., and will receive in exchange a thoroughbred registered dog, worth \$50, and some cash on the side. The boys have also purchased two more thoroughbred blood hound trained dogs of a firm in Berry, Ky., which will fit the Bridgman & Dudley kennels up in first-class shape, with four of the best dogs that can be secured, and the boys will be able to handle any case that comes their way.

serious accident last Saturday evening while driving home from Mound City in his big car. Just west of the Bookson place, Mr. Iden turned around to speak to one of the parties in the rear seat, unconsciously turning the steering wheel in the same direction, the steering wheel being on the right side, this turned the car into the ditch on the south side of the road; fortunately the car was going slow and he noticed it in time to shut off the power and the machine turned over slowly, allowing the occupants to get out without injury. With the exceptions of breaking the top and wind shield no damage was done. A team was procured and the machine righted and the car driven home under its own power.
—The Woodmen Circle lodge held a big meeting Wednesday evening of last week. Two new candidates were introduced into the mysteries of the order. Mr. and Mrs. V. A. Solleder, and the following officers were elected to serve the lodge during the year, 1916: Mrs. Edie Dodson, guardian; Mrs. B. O. Adkinson, advisor; V. A. Solleder, clerk; Mrs. W. W. Waggoner, banker; Miss Bernice Morris, chaplain; Mrs. Ruth Lease, attendant; Miss Rita Crow, assistant attendant; Miss Bertha Morris, inner sentinel; Miss Minnie Crow, outer sentinel; George V. Hinkle, manager for three years; and Mrs. V. A. Solleder, musician. This is certainly an excellent set of officers, who will no doubt pilot the Circle through the year 1916, with credit, both to themselves and the order. District Deputy Mrs. Helen Loomis, of St. Joseph, was present, and while here was the guest of Miss Rita Crow, at the City Hotel.
—We will sure take our hat off to you, Bro. Goody, and your suggestions

that the people should help out, with the neighborhood news—by sending them in is just right, and the people should make it their business to co-operate with the correspondents by sending in the news, or telephoning it in, to the end that all of the news may be secured, and that the facts may be given and that there will be no errors. We are glad to be able today there are a few people in this neighborhood who show their hearts are in the right place by handing in news of interest. This correspondent's job is no snap—we all aim to secure the news of the neighborhood for the benefit of the neighbors and the non resident, who has moved away. There's no fame, Goody, that's a fact, but it is certainly a good advertisement for any town or neighborhood, and the people should be interested in advertising the place where they live. In the words of Bro. Goody, "come to the front, folks, and let's have the news, be a booster, and help us keep Bigelow on the map."

Tommy Kreek, who is farming the old Brodbeck farm, just west of town, and owned by L. I. Moore, states he has gathered 25 acres that has measured out 70 bushels per acre.
